REMARKS

In response to the Restriction Requirement of May 25, 2005, Applicants hereby elect Claims 7-20 corresponding to Invention II, drawn to methods of fabricating integrated circuit devices. Applicants have cancelled Claims 1-6 corresponding to Invention I, drawn to integrated circuit devices. This cancellation is being made without prejudice to the filing of a divisional application for these claims and/or other claims.

Applicants are not traversing the restriction requirement because Applicants agree that the unpatentability of Invention I would not necessarily imply the unpatentability of Invention II.

The title has been changed to conform to the election of method Claims 7-20.

In view of the above, Applicants respectfully request favorable examination and allowance of Claims 7-20.

Respectfully submitted,
